

Capabilities Overview

DMG Federal (DMG) Overview

DMG is an SBA certified Woman Owned Small Business consulting practice that provides Information Technology (IT) services and solutions for both civilian and defense Federal Government departments and agencies.

We offer a comprehensive range of IT consulting services specifically designed to achieve organizational strategic goals and objectives. Our staff of highly trained and certified resources leverages best practices and proven processes, which deliver repeatable, measurable results that have been the cornerstone to our success.

Our breadth of expertise and strategic partnerships, which encompass a broad range of technologies, will ensure that whatever your IT requirements or strategic initiatives are, our staff has the knowledge and expertise to apply the right technology for the requirement. As the graphic below illustrates, DMG Federal is a dependable and reliable IT services and integration partner, from IT outsourcing to educational services and training.
